finished diameter

Tri-Flex Wire Rope Slings are three-part slings created to replace large diameter single-part wire rope slings that proved awkward and stiff. Steel erectors, millwrights, and riggers use Tri-Flex Wire Rope Slings for everything from steel erection or machinery moving to any type of heavy lift. These slings are made in matching lengths. These slings provide the best combination of strength and flexibility. Because of the Tri-Flex sling construction, there is a large savings in material and machine costs in the larger sizes. This, combined with ease of use, makes Tri-Flex Wire Rope Slings the slings for smart buyers.
